Hi Jill

I have attached a map of the well locations and surface water sampling locations, and the time series graphs I talked about over the phone. The file called "lnfh time series graphs Ecology" includes some figures run by WA Dept. of Ecology. I ran the figures in the other (Excel) file.

2014 Quarter 1 sampling dates:

Both Icicle Creek locations were sampled 1/17/2014 with the exception of the T. coliform samples, which were both collected 1/18/2014.

Effluent was sampled 1/18/2014.

Wells 1-7 were all sampled on 1/17/2014; of these wells, we had to re-sample T. coliform at Well 1, 5, 6 and 7 on 1/20/2014.

OW-3 and OW-4 were sampled on 1/18/2014.

OW-1, OW-2 and Well 9 were sampled on 1/20/2014.

Let me know if you have questions. Thanks,  
Julie
